

Dewsbury

The Client Requirements

Mrs Inghams of Dewsbury, W. Yorkshire required us to clear her overgrown garden, which had become too much to handle. The property had several garden beds as well as a front and back lawn. One specific requirement Mrs Inghams had was that the whole garden clearance was to be completed in the next few days in time for the summer weather. The team at ADC Property Solutions delivered this project within the specified time scales from planning to completion.

This project involved

- Mowing both the front and back lawns
- Weeding the garden
- Cutting back shrubs, hedges and trees
- Removal of general garden waste and grass cuttings
- Taking down three large trees in the back garden

The Challenge

The garden was left in an untidy state for a number of years, with overgrown shrubs, bushes, weeds and lawns. As well as the difficult task of removing three large trees from the back garden. All of which needed to be completed within the short timeframe allocated.

The Solution

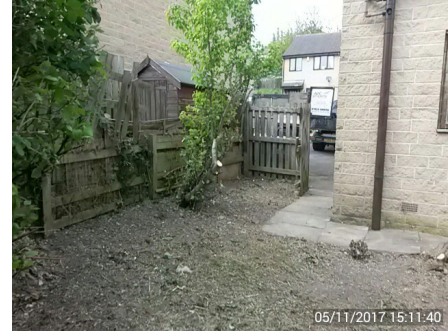

The solution was to instruct our team of operatives to carry out a full garden clearance within the short timeframe allocated. Clearing and tidying the garden, driveway and paths around the property. Mowing the lawns as necessary, ensuring garden beds are kept weed-free, and scrubs and hedges are either well maintained or removed.

The Result

The front and back garden of the property was fully cleared within the allocated timeframe. Overall, Mrs Inghams was extremely happy with the service ADC provided, describing it as lifting a massive weight off her shoulders.
